Election/Restriction

Restriction to one of the following inventions is required under 35 U.S.C. 121:

Group I: Claims 1-4, drawn to a method of etching by generating a plasma, classified in Class 216, subclass 67.

Group II: Claims 5-7, drawn to method of cleaning polymer residue, classified in Class 134, subclass 22.1.

Group III: Claims 8-16, drawn to method of cleaning etchant debris by introducing oxygen containing gas, classified in Class 216, subclass 58.

The inventions are distinct, each from the other because of the following reasons:

Inventions I, II and III are unrelated. Inventions are unrelated if it can be shown that they are not disclosed as capable of use together and they have different modes of operation, different functions, or different effects (MPEP § 806.04, MPEP § 808.01). In the instant case the different inventions Invention I, claims 1-4 requires a plasma generation, wherein Invention II, claims 5-7 requires first stage and second stage of different gases to remove polymer residue and invention III, claims 8-16 requires to use an oxygen-containing gas to remove debris in a chamber.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, have acquired a separate status in the art because of their recognized divergent subject matter, the search required for Group I is not required for Group II and III restriction for examination purposes as indicated is proper. A telephone call was made to Mr. James H. Beusse on July 20, 2005 on to request an oral election to the above restriction requirement, but did not result in an election being made.

Art Unit: 1746

Applicant is advised that the response to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed.

Joint Inventors

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 C.F.R. § 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a diligently-filed petition under 37 C.F.R. § 1.48(b) and by the fee required under 37 C.F.R. § 1.17(h).
